

SP-VHB25MM

XACP

Package Contents:

- (1) VHB Adhesive Base to 25mm (1 inch) Ball Adapter
- (1) Alcohol Pad (XACP)

WARNING:

Use caution and discretion when adhering SP-VHB25MM to your car dashboard or other flat surface. This disk uses 3M VHB adhesive, which is designed to be a PERMANENT solution. Use of this disk may result in permanent adherence to the selected surface. Professional strength solvents or tools may be helpful in removing the adhesive. Arkon is not responsible for any damage caused to your vehicle or other surface due to the installation of this mounting disk. Adhesive disks with a semi-permanent bonding strength (Model AP036 – 70mm, Model AP013 – 80mm, Model AP020 – 90mm) are available from Arkon.

Dashboard Mounting Instructions

- 1 Choose a suitable location for disk (and pedestal) installation. Do not place mount in or near an air bag deployment zone or where it will obstruct view of the road or hinder vehicle operation. Clean the dashboard surface area thoroughly with the included alcohol pad. Allow the area to dry completely before applying the mounting disk.
- 2 Remove the paper backing of the disk and place on the cleaned surface. Press down firmly in order to create adhesive contact and bond strength with the surface. Allow 24 hours for the adhesive to cure to the surface before applying any pressure.

- 3 Place the loosened shaft of the 25mm pedestal (sold separately) onto the 25mm ball of the mounting disk and tighten adjustment knob.

⚠ Safety Precautions

Do not install Arkon products over an air bag cover or within the air bag deployment zone. Arkon Resources, Inc. assumes no responsibility of liability for injury or death as a result of car crashes and / or air bag deployment.

Arkon is not responsible for any damages caused to your vehicle, your device, or yourself due to the installation or use of this mount.
