Important: Clean the application surface before applying the optional magnetic ring

Important: If using the optional magnetic ring, please press the adhesive back side to the application surface firmly. Allowing 24 hours for the adhesive to cure before using.

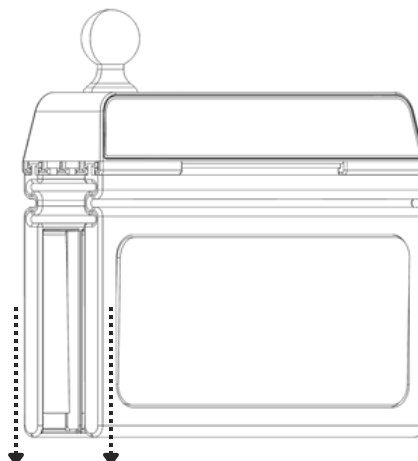

1 Adjusting the Seat Wedge Mount

Adjust the plates to fit the desired space between your car seat and console by sliding them into the channels located on the bottom of the mounting base.

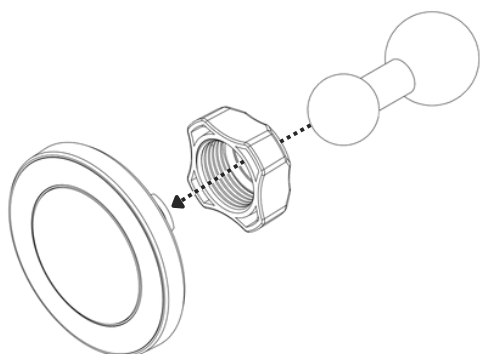

2 Install the Seat Wedge Mount

Slide the mount into the gap between the seat and console until it fits snugly. If it feels loose, adjust the plates to wider channels for a tighter fit.

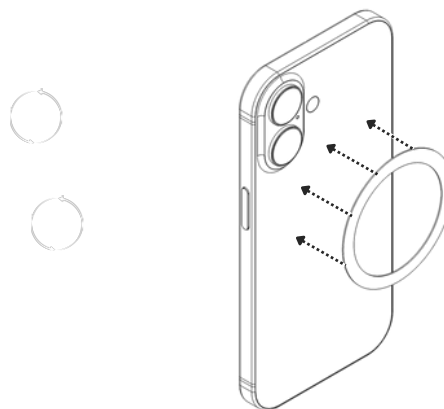

3 Attach the Magnetic Holder to the 17mm Ball Adapter

Remove the tightening ring, slide it over the 17mm ball adapter, attach the magnetic holder, and tighten the ring to secure it.

4 Optional - The Magnetic Ring

To attach the adhesive magnetic ring to your non-magsafe smartphone case, just remove the yellow sticky side and apply to the back of your device.
