**Warning:** Drilling into dash, floor, or console will permanently damage the vehicle. Use caution and consult a mobile install professional to avoid drilling into the gas tank, electrical system or other highly sensitive vehicle components.

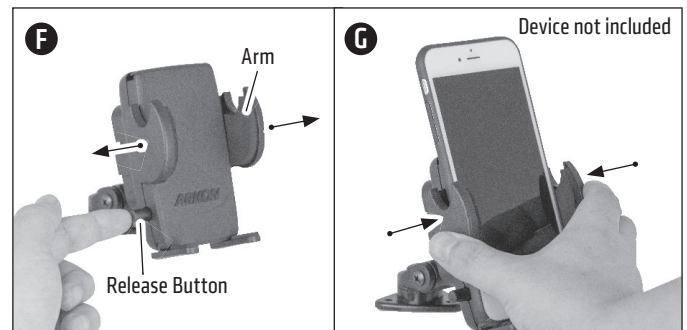

**1** The multi-angle mount base can be positioned by **(A)** twisting the base to the right or left, **(B)** twisting the head to the right or left, or **(C)** tilting the head forward or back. Note that some pressure is required to adjust the ratcheted mount base.

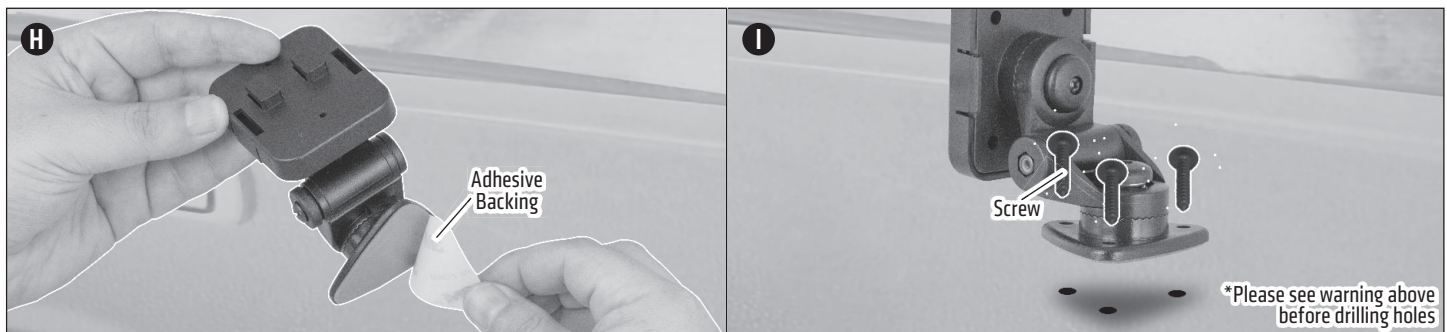

**2** **(D)** Attach holder to the mount by inserting the Dual T-Tabs on the mount head into the Dual T-Slots of the holder. **(E)** Push up on the holder until it clicks into place to securely attach.

**3** **(F)** Press the release button to open arms. **(G)** Place the device into the holder with the device sitting on the adjustable support legs. Clamp the holder arms inward to firmly grasp the device.

**4** **(H)** Use included alcohol pad to ensure mounting area is clean and free of any dashboard conditioners or other treatments. Remove adhesive backing and apply to a previously cleaned surface. For best results, allow 24 hours for the adhesive to cure on the dashboard. **(I)** Optionally, you can screw the mount to the dashboard with the provided screws.

**Safety Precautions**  
 Do not reposition the pedestal while cycling or driving. Arkon Resources, Inc. does not promote the adjustment of mobile devices except when the bicycle or vehicle is safely parked or stopped.

Arkon is not responsible for any damages caused to your bicycle or vehicle, your device, or yourself due to the installation or use of this product.
